

# Managed Virtual Instances

Managed Services Delivered

Expedient's Virtual Instances allow companies to take advantage of the benefits of a virtualized server environment without the need to have an internal staff that are experts on VMware, Xen or Microsoft Hyper V.

## • Advantages

- Scalable on demand
- No CAPEX required, linear cost structure
- Ensure data continuity & comply with government regulations for data security and retention
- Off-Site hosting provides protection for disaster recovery and business continuity purposes
- Eliminate the need for owning and managing servers and other infrastructure assets
- Daily full backups of all of your data
- Proactive monitoring and management of all hardware and VMware systems
- Pay-As-You-Grow expansion capability without capital expenditures

## Why Managed Virtual Instance?

One of the main challenges that many companies face is how to increase the capabilities of their systems to meet the demands of their business, without spending a fortune. The best way to achieve this goal is through virtualization. But virtualizing can introduce new challenges if your company does not have internal experts on deploying and maintaining virtual environments suitable for production data. Expedient can help with both of these challenges and offers Managed Virtual Instances as an option to minimize capital expense, while augmenting your staff's technical know-how.

Our Systems are housed in our SAS 70 Type II, fully redundant facilities. Located in risk averse regions, you can rest assure that our business systems are secure and available 24x7x365.

# About Expedient

Expedient is part of a network of nationwide data centers which offer a wide range of managed services and network connectivity. These proven managed services combined with reliable and redundant SAS 70 Type II Certified and PCI-DSS compliant data centers, interconnected with a private 10Gbps network, enables Expedient to deliver premier colocation, network and managed services to enterprise, commercial, education and government entities.

## Always Staffed Facilities

- Expedient technicians are on site 24 hours a day, 7 days a week, 365 days a year
- Operations Support Center staff are just 5 steps from raised floor equipment for any and all remote hands work
- Specialized, experienced and certified engineers available for consultation
- Our level of technical expertise is unparalleled for data center services
- Expedient maintains complete authoritative and operational control over its data center facility, allowing facility engineers, electricians, and contractors to produce the solutions that custom fit clients' needs

## Supported Client Types

- Microsoft Windows 2003, 2008 (Data Center, Enterprise, Standard & Web Editions)
- Linux (RedHat / CentOS / Debian / SUSE 9, 10)
- Sun Solaris 9,10
- HP-UX
- VMware ESX

## Redundant Virtual Server Farm

- N+2 Server Infrastructure
- Move instances between hosts seamlessly
- Virtual Disaster Recovery can be added as an option

Expedient Virtual Data Center Solutions deliver a fully redundant Enterprise Architecture monitored and managed 24x7 with the capability to expand on demand. Virtual Data Center Solutions can be provided at an overall lower cost than most traditional colocation or managed hosting scenarios.

Virtual Data Center Solutions can be delivered at an overall lower cost than most traditional colocation or managed hosting scenarios.
